

ThreatConnect & Accenture DeepSight Intelligence

The new ThreatConnect® and Accenture integration enables users to collect and act on Accenture™ Cyber Security Services: **DeepSight Intelligence in the ThreatConnect platform.** This integration allows users to ingest DeepSight Intelligence Advanced IP and URL Reputation feeds into ThreatConnect, so they can act on this intelligence in their network.

The Challenge

Cybersecurity teams face a rapidly evolving threat environment.

As alert numbers increase, teams have less time to spend investigating potential threats outside their own environments. When teams begin looking at external threat intelligence feeds they have no way of knowing if the information in a feed is comprehensive or reliable.

The Solution

The ThreatConnect and Accenture integration:

- ✓ Ingests Accenture Cyber Security Services: DeepSight Intelligence into ThreatConnect
- ✓ DeepSight Intelligence is drawn from Accenture's broad portfolio of security products and its adversary intelligence operations, so you are ensured that your intelligence is enriched, verified, and analyzed
- ✓ Ensures users are working with the most relevant and accurate threat intelligence data
- ✓ Provides users the ability to act on the intelligence within their own network

Accenture DeepSight Intelligence

Ingest Accenture DeepSight Intelligence data into ThreatConnect

View and validate with threat intelligence in **ThreatConnect**

Send validated threat intelligence to your infrastructure for **alerting and blocking**

Features & Benefits

Ingests indicators from Accenture DeepSight Intelligence feeds into ThreatConnect

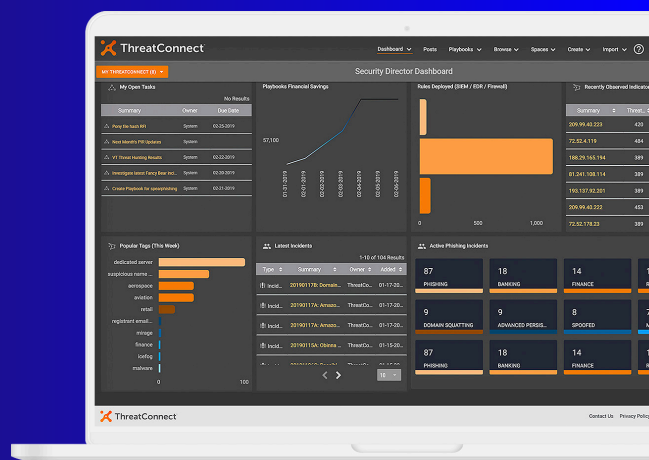

Ensures that you are working with the most reliable and relevant data

Utilizes data from Accenture's security product portfolio and intelligence operations

How to Get Started
