ThreatConnect.

Evolve Your Cyber Threat Intelligence with the ThreatConnect TI Ops Platform

Go beyond managing, to operationalizing your threat intelligence with ThreatConnect's AI-powered Platform

Operationalize cyber threat intelligence, capture and apply analyst knowledge and tradecraft, and integrate, automate, and orchestrate activities across all your tools. Your teams will be more effective, more confident, and more collaborative.

Built on the world's leading threat intelligence platform

ThreatConnect TI Operations

Intelligence Sources & Inputs

Commercial · ISAC/ISAO · Open Source · Trusted Partners · Internally Generated · Alerts · Emails · Vulnerabilities

CAL™ — AI-Powered Analytics and Global Intelligence

Aggregate → Enrich → Analyze → Act

API / STIX & TAXII / Apps / Integration Manager · Threat Library · Auto Enrichment · Workflow & Case Management · CAL Feeds · AI Insights · Native Reporting · Intelligence Anywhere · ATT&CK Visualizer · Threat Graph · Playbooks & Low-code Automation · Intelligence Requirements

Users

TI Ops Analyst · Sec Ops Analyst · Incident Responder · Threat Hunter · Security Leaders · Red Team

Integrations

Endpoint Security · SIEM · Network Security · Cloud · Email Security · Risk · Malware Analysis · IAM · Vulnerability Management
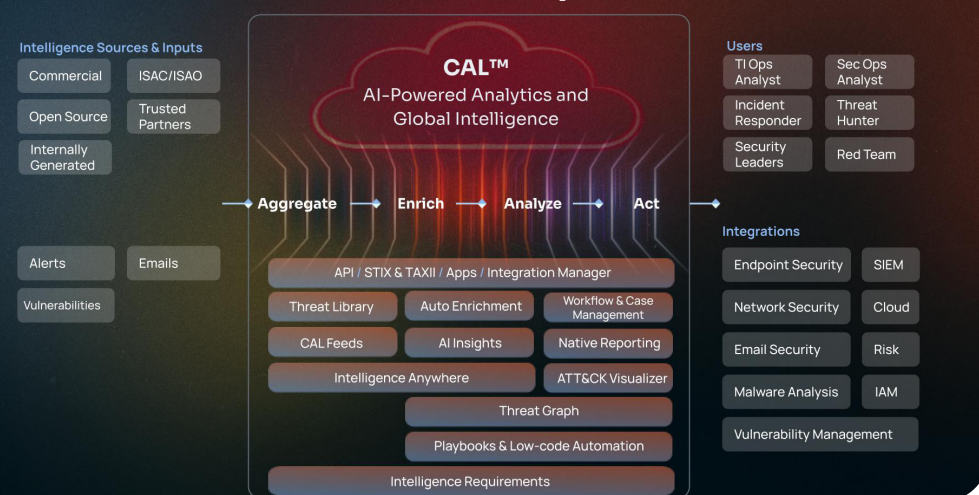

Platform Capabilities

- AI-powered analytics (CAL™)
- Extensible and scalable to 100's of millions of IOCs
- Centrally document and action intelligence requirements
- Enables visualization of threat intel to uncover relationships and understand threat actor behaviors
- Automate tasks and processes without manual coding
- Standardize workflows, and centrally capture knowledge and insights
- Create, manage, and share reports within the Platform
- Extend intel beyond the Platform
- Integrates with all major security and IT tools

THE CHOICE OF THE GLOBAL 2000

GENERAL DYNAMICS
Information Technology

Natively Integrate Cyber Intelligence, Optimize Operations

Relevant and Actionable Threat Intel for the Entire Cybersecurity Team

◆ **Cyber Threat Intel Analyst**
ThreatConnect aggregates, normalizes, adds context, and unifies your intel into the Threat Library. Native AI and ML powered analytics and global intelligence, along with automation, lets you analyze and disseminate intel faster and easier.

◆ **Security Leadership**
Get a centralized view on how Threat Intel and Security Operations is performing with automated metrics, tailored dashboards, and native Reporting to communicate business relevant information to executives.

◆ **Security Operations Analyst**
Whether it's responding to threats or mitigating vulnerabilities, you need to be more effective and efficient, leveraging collective threat intel and knowledge, and workflows and automation.

◆ **Detection Engineer**
ThreatConnect helps you solve the challenge of staying up-to-date with evolving threats and turning that knowledge into high-fidelity detection rules and code for customers. ThreatConnect helps you quickly create, maintain, and share relevant, actionable detections.

◆ **Incident Responder**
Leveraging threat intelligence, workflows and automation to accelerate incident response is critical to minimize the impact of threats and attacks to your organization while making your job easier.

◆ **Threat Hunter**
Finding and expelling the threats that got through your defenses is critical, but operationalizing threat hunting can be hard. You need a single place to integrate tools, automate searches, and easily visualize related threat intelligence, data and context.

◆ **Red Teamer**
Finding ways to authentically simulate and test the security operation teams' ability to stay ahead of the latest threat actors is important. ThreatConnect enables red teamers to adapt their strategies and tactics to mimic these evolving threats.

… Across Your Critical Use Cases

◆ Build a Unified Threat Library

◆ Threat Intel Enrichment

◆ Generate Strategic Intelligence

◆ Automated Malware Analysis

◆ Vulnerability Prioritization

◆ Alert Triage

◆ Phishing Analysis and Response

◆ Threat Detection and Prevention

◆ Incident Response

◆ Threat Hunting

Reach out to learn how the ThreatConnect TI Ops Platform can make you and your team more effective, decisive, and collaborative.

ThreatConnect.

ThreatConnect enables threat intelligence operations, security operations, and cyber risk management teams to work together for more effective, efficient, and collaborative cyber defense and protection. With ThreatConnect, organizations infuse ML and AI-powered threat intel and cyber risk quantification into their work, allowing them to orchestrate and automate processes to get the necessary insights and respond faster and more confidently than ever before. Over 200 enterprises and thousands of security professionals rely on ThreatConnect every day to protect their organizations' most critical assets. **Learn more at www.threatconnect.com.**
