

# ThreatConnect and CrowdStrike

Accelerate and enhance threat detection, prevention, and response activities by combining the power of CrowdStrike Threat Intelligence and Solutions with ThreatConnect's Threat Intelligence Operations Platform.

## The Challenge

Cybersecurity operations teams are overwhelmed with too many alerts and false positives, and find it hard to identify and prioritize the ones that matter. This leads to delayed responses to the most critical incidents.

## Why ThreatConnect + CrowdStrike

Combining CrowdStrike's Falcon Intelligence and Solutions, like Falcon Insight XDR, with the industry's only Threat Intelligence Operations Platform gives cybersecurity operations teams an unfair advantage over their adversaries. Threat Intel Ops teams gain access to high-fidelity threat indicators and insights on threat actors, and Security Ops teams enhance the effectiveness of their CrowdStrike solutions, as well as other threat detection, prevention, and response tools.

### Key Benefits

#### MAKE THREAT AND VULNERABILITY ANALYSIS FASTER AND EASIER

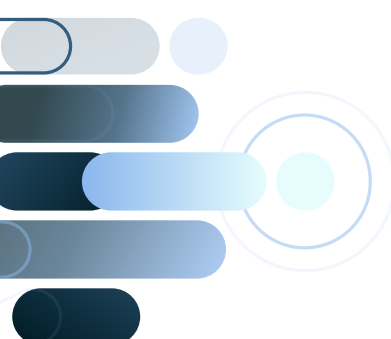

Increase the utility and value of CrowdStrike Falcon Intelligence by incorporating and operationalizing it in the ThreatConnect Platform.

#### AMPLIFY THE POWER OF CROWDSTRIKE SOLUTIONS

Apply a high-fidelity, single source of threat intelligence "truth" to CrowdStrike Insight XDR and other CrowdStrike solutions.

#### FAST TIME- TO-VALUE

Quickly connect CrowdStrike intel and solutions to ThreatConnect with pre-built, out-of-the-box Apps leveraging the Threat Intelligence Engine (TIE).

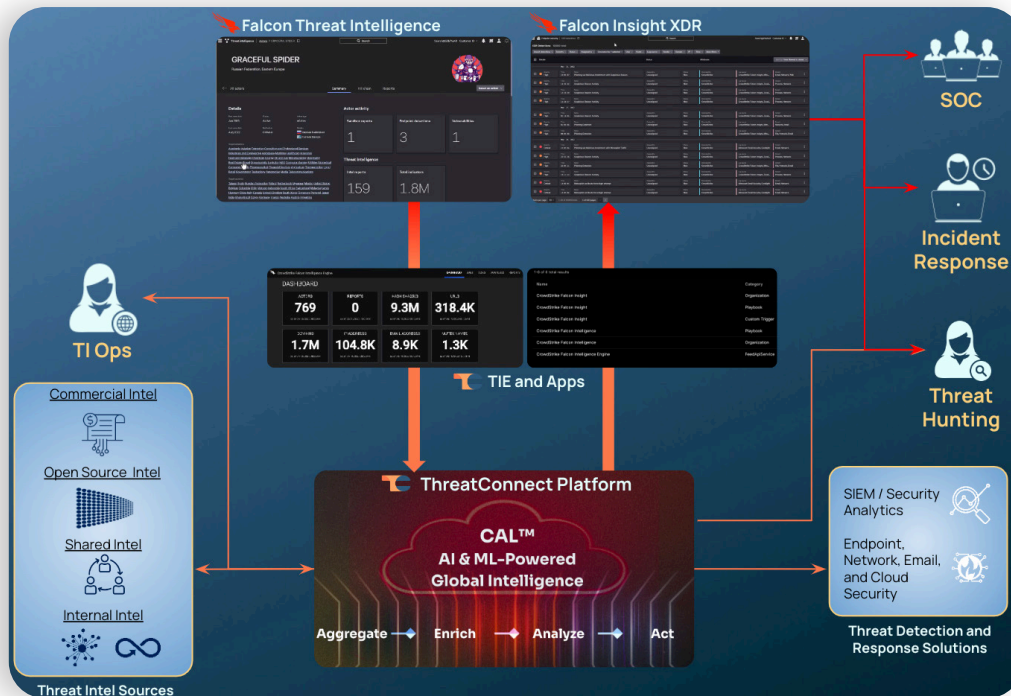

# Get Results with ThreatConnect + CrowdStrike

## Address common use cases like:

- ◆ Build a Threat Library with CrowdStrike Falcon Threat Intelligence
- ◆ Enhance Threat Detection and Prevention
- ◆ Accelerate Incident Response and Threat Hunting

## See how it works:

## How to Get Started

Joint ThreatConnect and CrowdStrike customers can integrate the solutions via the ThreatConnect App Catalog or reach out to your Customer Success Manager. ThreatConnect customers that want to learn more about CrowdStrike should reach out to sales at <https://www.crowdstrike.com/contact-us/>

ThreatConnect enables threat intelligence operations, security operations, and cyber risk management teams to work together for more effective, efficient, and collaborative cyber defense and protection. With ThreatConnect, organizations infuse ML and AI-powered threat intel and cyber risk quantification into their work, allowing them to orchestrate and automate processes to get the necessary insights and respond faster and more confidently than ever before. Over 200 enterprises and thousands of security professionals rely on ThreatConnect every day to protect their organizations' most critical assets.
