

# ThreatConnect & Mandiant Threat Intelligence

ThreatConnect® and Mandiant Threat Intelligence have partnered to deliver Mandiant into the ThreatConnect platform. With this integration, cybersecurity teams are provided the necessary intelligence to defend against emerging cyber threats.

## The Challenge

Cybersecurity teams don't have enough context about their threat data, which makes it difficult to decide where to focus their efforts.

Mandiant Threat Intelligence provides cybersecurity teams with reports that contain a large amount of valuable information about a possible threat. However, most cybersecurity tools simply scrape the indicators from this information. If cybersecurity teams are only able to see the indicators, they lose all of the valuable context that the Mandiant Threat Intelligence reports provide.

## The Solution

The ThreatConnect and Mandiant Threat Intelligence integration:

- > Gives ThreatConnect users access to Mandiant Threat Intelligence reports and indicators, including Cyber Crime, Cyber Espionage, Hacktivism, Enterprise, Critical Infrastructure, and Vulnerability & Exploitation
- > Ingests Mandiant Threat Intelligence reports, associated indicators, and threat groups into ThreatConnect
- > Automatically associates all of the data from Mandiant Threat Intelligence so you can easily pivot on it in ThreatConnect
- > Stores Mandiant Threat Intelligence reports as documents, so they are easily searchable and viewable in ThreatConnect

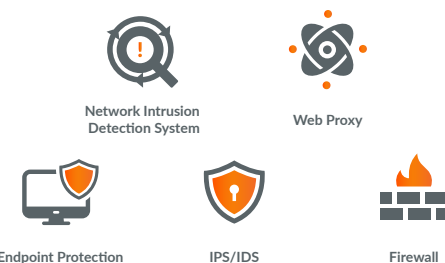

## Mandiant Threat Intelligence

Ingest **Mandiant Threat Intelligence** reports and/or indicators

**View and correlate** with threat intelligence in ThreatConnect

Send validated threat intelligence to your infrastructure for **alerting** and **blocking**

MANDIANT

# Features & Benefits

Correlates cyber threat intelligence from Mandiant Threat Intelligence with multi-source, validated threat intelligence in ThreatConnect

Ensures that you get the full context about threats by allowing you to view Mandiant Threat Intelligence reports in their original form

Enables you to send threat intelligence to other parts of your security infrastructure

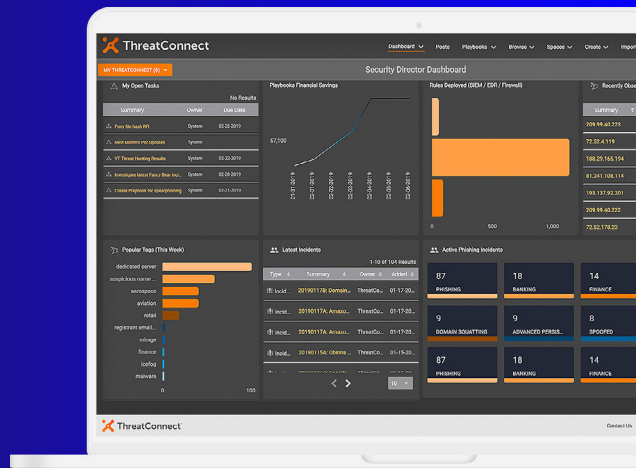

Automatically associates all of the data from Mandiant Threat Intelligence so you can easily pivot on it in ThreatConnect

Stores Mandiant Threat Intelligence reports as documents, so they are easily searchable and viewable in ThreatConnect

## How to Get Started

If you already have an account with ThreatConnect, contact your Customer Success Engineer for information on how to integrate with Mandiant Threat Intelligence.

If you want to get access to Mandiant Threat Intelligence, please contact Mandiant at **888-645-8321** or online at [www.mandiant.com/contact-us](http://www.mandiant.com/contact-us).

## About Mandiant Threat Intelligence

Mandiant is the intelligence-led security company. Working as a seamless, scalable extension of customer security operations, Mandiant offers a single platform that blends innovative security technologies, nation-state grade threat intelligence, and world-renowned Mandiant® consulting. With this approach, Mandiant eliminates the complexity and burden of cybersecurity for organizations struggling to prepare for, prevent, and respond to cyber attacks. Mandiant has over 5,300 customers across 67 countries, including more than 845 of the Forbes Global 2000.
