

# ThreatConnect & FireEye Threat Intelligence

**ThreatConnect® and FireEye Threat Intelligence** have partnered to deliver FireEye into the ThreatConnect platform. With this integration, cybersecurity teams are provided the necessary intelligence to defend against emerging cyber threats.

## The Challenge

Cybersecurity teams don't have enough context about their threat data, which makes it difficult to decide where to focus their efforts.

FireEye Threat Intelligence provides cybersecurity teams with reports that contain a large amount of valuable information about a possible threat. However, most cybersecurity tools simply scrape the indicators from this information. If cybersecurity teams are only able to see the indicators, they lose all of the valuable context that the FireEye Threat Intelligence reports provide.

## The Solution

The ThreatConnect and FireEye Threat Intelligence integration:

- > Gives ThreatConnect users access to FireEye Threat Intelligence reports and indicators, including Cyber Crime, Cyber Espionage, Hacktivism, Enterprise, Critical Infrastructure, and Vulnerability & Exploitation
- > Ingests FireEye Threat Intelligence reports, associated indicators, and threat groups into ThreatConnect
- > Automatically associates all of the data from FireEye Threat Intelligence so you can easily pivot on it in ThreatConnect
- > Stores FireEye Threat Intelligence reports as documents, so they are easily searchable and viewable in ThreatConnect

### FireEye Threat Intelligence

Ingest **FireEye Threat Intelligence** reports and/or indicators

**View** and **correlate** with threat intelligence in ThreatConnect

Send validated threat intelligence to your infrastructure for **alerting** and **blocking**

# Features & Benefits

Correlates cyber threat intelligence from FireEye Threat Intelligence with multi-source, validated threat intelligence in ThreatConnect

Ensures that you get the full context about threats by allowing you to view FireEye Threat Intelligence reports in their original form

Enables you to send threat intelligence to other parts of your security infrastructure

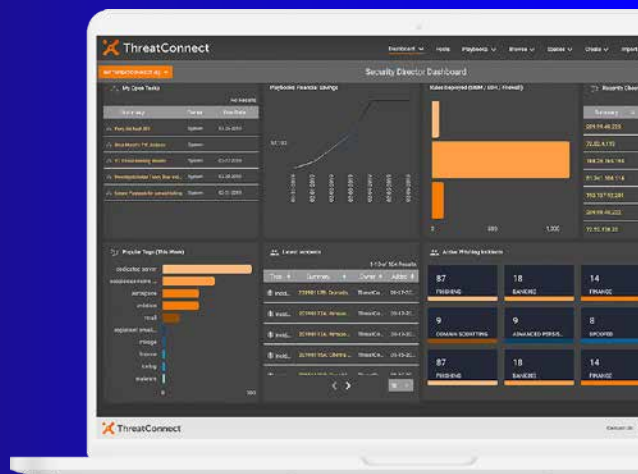

Automatically associates all of the data from FireEye Threat Intelligence so you can easily pivot on it in ThreatConnect

Stores FireEye Threat Intelligence reports as documents, so they are easily searchable and viewable in ThreatConnect

## How to Get Started

If you already have an account with ThreatConnect, contact your Customer Success Engineer for information on how to integrate with FireEye Threat Intelligence.

If you want to get access to FireEye Threat Intelligence, please contact FireEye at (877) FireEye or online at [www.fireeye.com/company/contact-us.html](http://www.fireeye.com/company/contact-us.html).

## About FireEye Threat intelligence

FireEye is the intelligence-led security company. Working as a seamless, scalable extension of customer security operations, FireEye offers a single platform that blends innovative security technologies, nation-state grade threat intelligence, and worldrenowned Mandiant® consulting. With this approach, FireEye eliminates the complexity and burden of cyber security for organizations struggling to prepare for, prevent, and respond to cyber attacks. FireEye has over 5,300 customers across 67 countries, including more than 845 of the Forbes Global 2000.

Designed by analysts but built for the entire team (security operations, threat intelligence, incident response and security leadership), ThreatConnect's intelligence-driven security operations platform is the only solution available today with intelligence, automation, analytics, and workflows in a single platform. Centralize your intelligence, establish process consistency, scale operations, and measure your effectiveness in one place. To learn more about our threat intelligence platform (TIP) or security orchestration, automation, and response (SOAR) solutions, visit [ThreatConnect.com](http://ThreatConnect.com).
