

MORE Results
BETTER Analysis
MORE ROI

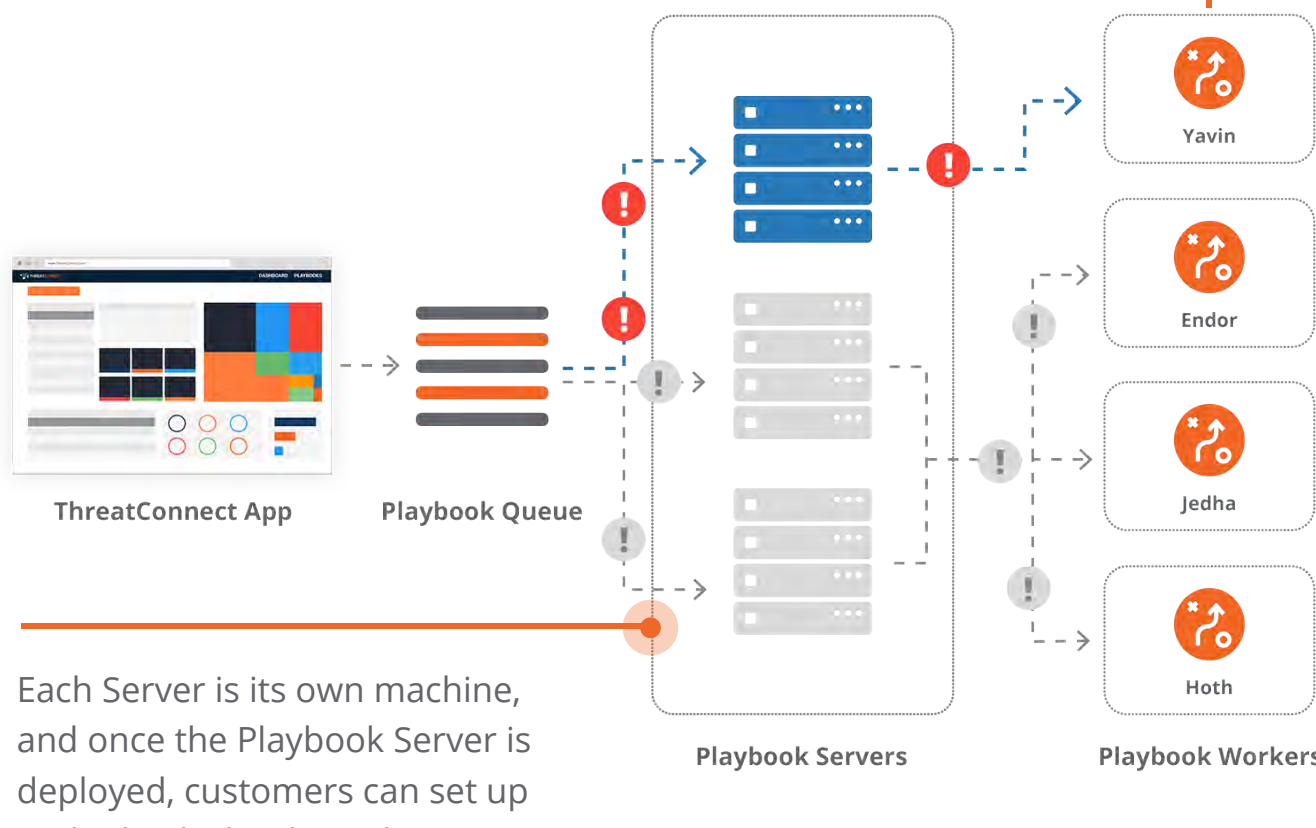

With the latest release of ThreatConnect, you will be able to make security decisions faster, more easily automate processes, improve your ability to react and respond, and quantify time and dollars saved by automating and orchestrating tasks using the new Playbooks ROI Calculator.

Here are just a few of the highlights:

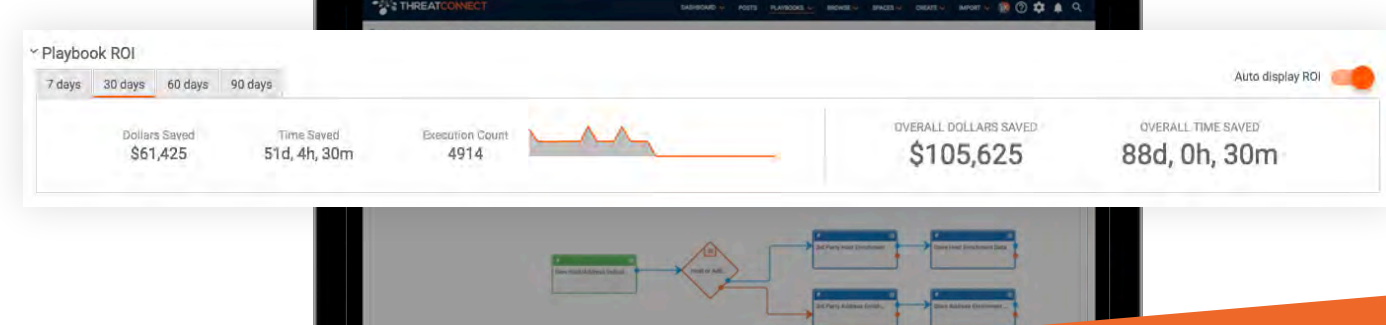

Key Features

Playbook Servers that allow you to easily and effectively scale ThreatConnect to handle thousands of Playbook executions, while prioritizing what's important.

Assign Specific Workers to certain Playbooks to ensure high priority Playbooks get ahead in the queue.

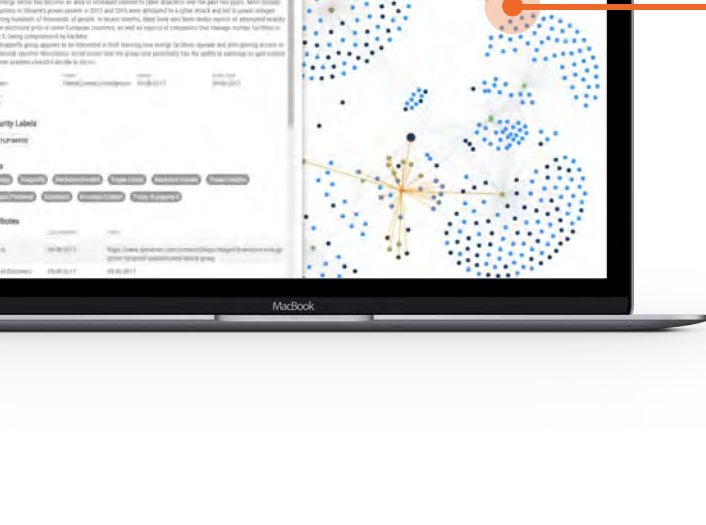

Each Server is its own machine, and once the Playbook Server is deployed, customers can set up multiple Playbook Workers to handle and monitor concurrent Playbook executions.

PLAYBOOKS ROI CALCULATOR

Track the return on investment of your automation and orchestration activities over the past 7, 30, 60, and 90 days. See the data on each Playbook Design page and on ThreatConnect Dashboards.

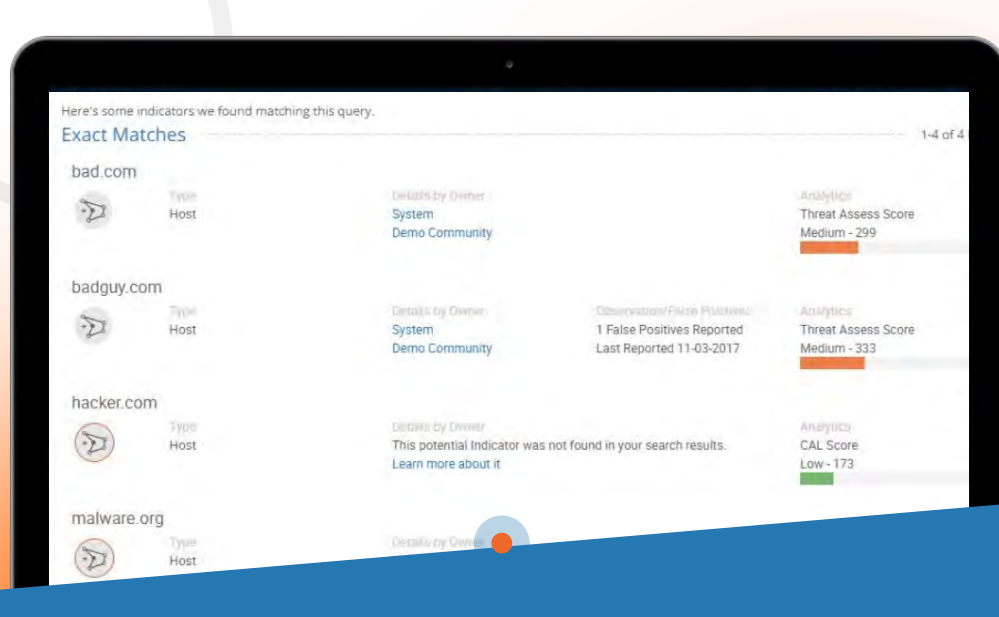

GRAPH VIEW

Using Graph View, visualize your data, find additional relationships and gain better context.

If an idea **isn't** exciting, you **shouldn't** do it.

—RAY BRADBURY

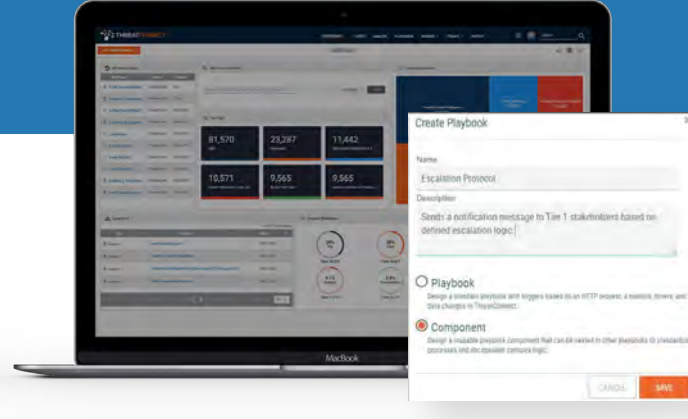

NEW AND IMPROVED SEARCH

Find relevant data and intel faster, search for multiple Indicators at a time, and view details on Indicators and Groups without navigating away from the results.

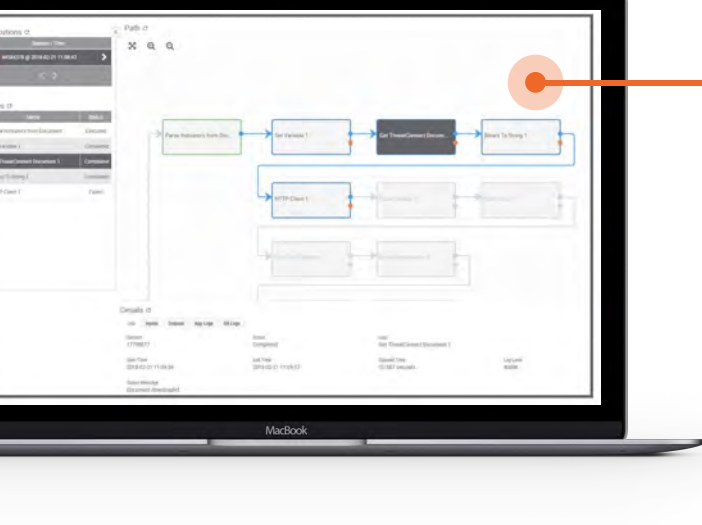

FEED REPORT CARDS

Identify best performing open source intel feeds with ThreatConnect's CAL™ (Collective Analytics Layer)

PLAYBOOK COMPONENTS

Use Playbook Components to bundle single elements and easily re-use them in custom playbooks.

PLAYBOOKS DEBUGGING

Fix compatibility issues and more easily connect your custom playbooks to third-party applications.

Collecting facts is important.

Knowledge is important. But if you don't have an **imagination** to use the knowledge, civilization is nowhere.

—RAY BRADBURY

NOTIFICATIONS

Get control of what you're notified on and how often. Receive an in-app alert, an immediate email, or a digest email. For each type of data, you can choose the types of notifications you want.
