

ThreatConnect LogRhythm Integration

Use Validated Threat Intelligence to Easily Spot Trends and Patterns

ThreatConnect® and **LogRhythm®** have partnered to enable users to detect and act on ThreatConnect intelligence in LogRhythm SIEM. With this integration, users are able to aggregate their internal logs and combine them with validated threat intelligence. This allows them to easily spot trends or patterns that are out of the ordinary and act on them efficiently.

The Challenge

Organizations of all sizes suffer from fragmentation of their security operations.

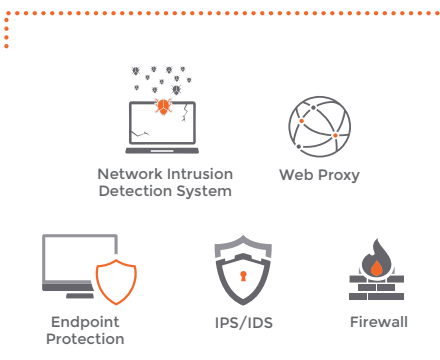

When security teams don't collaborate and tools don't communicate, critical gaps emerge. By making ThreatConnect intelligence data available in LogRhythm, organizations are able to build processes to identify the most relevant threats, proactively protect their network, and quickly respond to incidents in a measurable way.

The Solution

The integration helps ensure validated and actionable intelligence is being sent from ThreatConnect to LogRhythm.

First, aggregated logs from LogRhythm are combined with an organization's threat intelligence in ThreatConnect. ThreatConnect provides context with the indicators, and enables the security team to easily spot out-of-the-ordinary trends or patterns and act on them efficiently.

Data from the security infrastructure is **aggregated, correlated, and normalized** in ThreatConnect

ThreatConnect multi-sourced and validated data is **sent to LogRhythm for monitoring**

Features & Benefits

Sends all available threat data from ThreatConnect into LogRhythm for validated alerting

Provides the necessary context to be able to take action on the indicators

Enables real-time threat analysis and indicator correlation

Automates the detection of advanced threats

Ensures that you are sending validated threat intelligence to LogRhythm

How to Get Started

If you already have a ThreatConnect account, contact your Customer Success Engineer for information on the integration.

For more information on ThreatConnect integrated with LogRhythm, or any of our other 70+ security integrations, please contact sales@threatconnect.com.

ABOUT THREATCONNECT

ThreatConnect, Inc.® unites cybersecurity people, processes and technologies behind a cohesive intelligence-driven defense. Built for security teams at all maturity levels, the ThreatConnect platform enables organizations to benefit from their collective knowledge and talents; develop security processes; and leverage their existing technologies to identify, protect and respond to threats in a measurable way. More than 1,200 companies and agencies worldwide use ThreatConnect to maximize the value of their security technology investments, combat the fragmentation of their security organizations, and enhance their infrastructure with relevant threat intelligence.
