

# ThreatConnect & Qualys VM

Together, **ThreatConnect®** and **Qualys** enable data-driven patching prioritization for the risk management and SOC teams.

## The Challenge

Cybersecurity teams are overwhelmed with vast numbers of vulnerabilities with few ways to prioritize them.

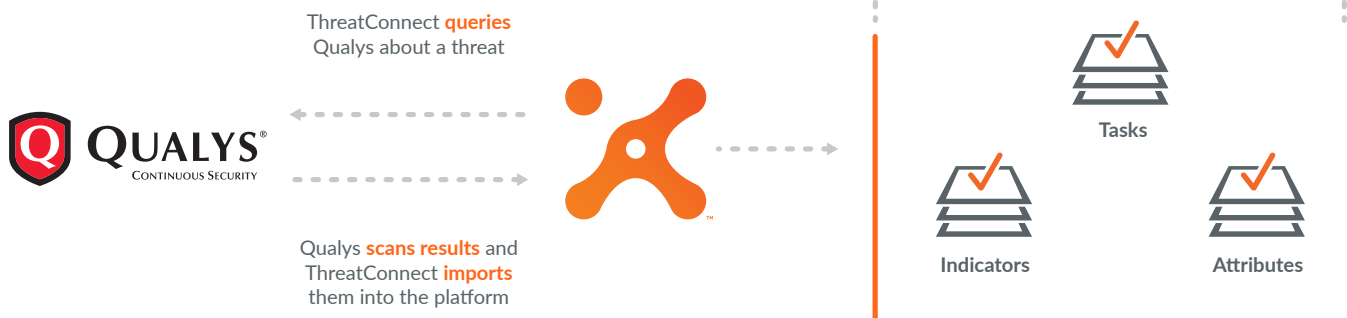

Remediating each issue takes a considerable amount of time, leaving critical vulnerabilities untouched for long periods of time. In order to ensure network protection, it is imperative to patch critical vulnerabilities as quickly as possible.

## The Solution

**The ThreatConnect and Qualys Vulnerability Management (VM) integration:**

- > Allows users to query Qualys scan results from within the ThreatConnect platform
- > Creates tasks, indicators, and attributes in ThreatConnect based on matching results automatically
- > Shows which machines are vulnerable to specific indicators, so one can pinpoint exactly where to take action

Tasks, indicators, and attributes are automatically created based on the results

# Features & Benefits

Enables intelligence-driven remediation

Helps you visualize and prioritize security threats to your organization

Saves you time by automating task and indicator creation

## About Qualys

Qualys, Inc. (NASDAQ: QLYS) is a pioneer and leading provider of cloud-based security and compliance solutions with over 8,800 customers in more than 100 countries, including a majority of each of the Forbes Global 100 and Fortune 100. The Qualys Cloud Platform and integrated suite of solutions help organizations simplify security operations and lower the cost of compliance by delivering critical security intelligence on demand and automating the full spectrum of auditing, compliance and protection for IT systems and web applications. Founded in 1999, Qualys has established strategic partnerships with leading managed service providers and consulting organizations including Accenture, BT, Cognizant Technology Solutions, SecureWorks, Fujitsu, HCL Comnet, Infosys, NTT, Optiv, Tata Communications, Verizon and Wipro. The company is also a founding member of the Cloud Security Alliance (CSA). For more information, visit: [www.qualys.com](http://www.qualys.com)

## How to Get Started

If you already have an account with ThreatConnect, contact your Customer Success Engineer for information on how to integrate with Qualys.

If you wish to obtain the ThreatConnect and Qualys integration, please contact [sales@threatconnect.com](mailto:sales@threatconnect.com) or **800.965.2708**.

Designed by analysts but built for the entire team (security operations, threat intelligence, incident response and security leadership), ThreatConnect's intelligence-driven security operations platform is the only solution available today with intelligence, automation, analytics, and workflows in a single platform. Centralize your intelligence, establish process consistency, scale operations, and measure your effectiveness in one place. To learn more about our threat intelligence platform (TIP) or security orchestration, automation, and response (SOAR) solutions, visit [ThreatConnect.com](http://ThreatConnect.com).
