RSA

ThreatConnect RSA® NetWitness® Suite Integration

Use Validated Threat Intelligence to Easily Spot Trends and Patterns

ThreatConnect® and **RSA®** have partnered to enable users to detect and act on ThreatConnect intelligence in the RSA NetWitness Suite. With this integration, users can aggregate their internal logs and combine them with validated threat intelligence, so they can easily spot trends or patterns that are out of the ordinary and act on them efficiently.

The Challenge

Organizations of all sizes suffer from fragmentation of their security operations.

When security teams don't collaborate and tools don't communicate, critical gaps emerge. By making ThreatConnect intelligence data available in the RSA NetWitness Suite, you're able to build processes to identify the most relevant threats, proactively protect your network, and quickly respond to incidents in a measurable way.

The Solution

The integration helps make sure you are sending validated and actionable intelligence from ThreatConnect to the RSA NetWitness Suite.

First, it takes aggregated logs from the RSA NetWitness Suite and combines them with your threat intelligence in ThreatConnect. ThreatConnect provides context with the indicators, and enables your security team to easily spot out-of-the-ordinary trends or patterns and act on them efficiently.

RSA NetWitness Suite

Data from the security intrastructure is aggregated, correlated, and normalized in ThreatConnect

ThreatConnect multi-sourced and validated data is sent to RSA NetWitness Suite for monitoring and event triage

IPS/IDS

FIREWALL

RSA

Benefits & Features

- ✓ Sends all available threat data from ThreatConnect into RSA NetWitness Suite for validated alerting

- ✓ Provides the necessary context to be able to take action on the indicators

- ✓ Enables real-time threat analysis and indicator correlation

- ✓ Automates the detection of advanced threats

- ✓ Ensures that you are sending validated threat Intelligence to RSA

How to Get Started

If you already have a ThreatConnect account, contact your Customer Success Engineer for more information.

If you want to purchase the integration, please contact **sales@threatconnect.com** or **800.965.2708**.

ABOUT RSA

RSA provides more than 30,000 customers around the world with the essential security capabilities to protect their most valuable assets from cyber threats. With RSA's award-winning products, organizations effectively detect, investigate, and respond to advanced attacks; confirm and manage identities; and ultimately, reduce IP theft, fraud, and cybercrime.

ThreatConnect

Designed by analysts but built for the entire team (security operations, threat intelligence, incident response and security leadership), ThreatConnect's intelligence-driven security operations platform is the only solution available today with intelligence, automation, analytics, and workflows in a single platform. Centralize your intelligence, establish process consistency, scale operations, and measure your effectiveness in one place. To learn more about our threat intelligence platform (TIP) or security orchestration, automation, and response (SOAR) solutions, visit ThreatConnect.com.
