

# Ukraine Conflict Threat Intelligence Dashboards

There are two example dashboards provided by ThreatConnect. The first is a compact dashboard while the second is one that offers additional depth of detail. For each dashboard, the card details that populate the dashboard are provided along with an example screenshot.

- 1) If you've never created a custom dashboard in ThreatConnect or need a fresher, [start with this tutorial](#).
- 2) Next, choose your Intel Sources (step 1), define your query (step 2), and choose a Chart Type (step 3).
