THREATCONNECT®   **Symantec**™

ThreatConnect & Symantec DeepSight Intelligence

The new ThreatConnect® and Symantec integration enables users to collect and act on Symantec™ Cyber Security Services: **DeepSight Intelligence in the ThreatConnect platform**. This partnership allows users to ingest DeepSight Intelligence Advanced IP and URL Reputation feeds into ThreatConnect, so they can act on this intelligence in their network.

The Challenge

Cybersecurity teams face a rapidly evolving threat environment.

As alert numbers increase, teams have less time to spend investigating potential threats outside their own environments. When teams begin looking at external threat intelligence feeds they have no way of knowing if the information in a feed is comprehensive or reliable.

The Solution

The ThreatConnect and Symantec integration:
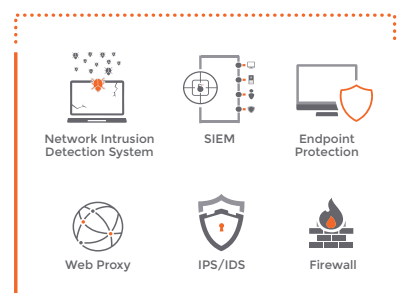

▸ Ingests Symantec Cyber Security Services: DeepSight Intelligence into ThreatConnect

▸ DeepSight Intelligence is drawn from Symantec's broad portfolio of security products and its adversary intelligence operations, so you are ensured that your intelligence is enriched, verified, and analyzed

▸ Ensures users are working with the most relevant and accurate threat intelligence data

▸ Provides users the ability to act on the intelligence within their own network
